**Q:** How do I get an avatar's UUID key?

o Most items from ASD that require avatar keys will include an object named "Key Finder" in the original box. (If you do not have it you can get the [script here](#) and copy it to a *New Script* in-world in a *New Object*.)

o Rez the object in-world and have the avatar Touch (click on) it. It will say the user's UUID key in Chat.

o Open your Local Chat History [ctrl+H] and Copy the key.

Here's an example of a valid key:
