

Picks not being recognized?

FAQ

Q: Avatar has place in Picks but it is not allowing?

1. Be sure avatar has "Show in Search" checked in Profile. [Image Example](#)
2. Profile Picks will not be recognized by search for around 24-48 hours. Meaning users of Picks Required products will need to wait that long before gaining access to objects.
3. It should also be noted that if you set your Picks a long time ago or have redrawn parcel lines, it is possible that that parcel key has changed since then. Deleting the old Pick from your profile and creating a new one from the place now may help if you've tried the previous 2 suggestions.
