[UPDATED: All Copyable Tip Jars - Version 7.0](#)

Category : [Announcements](#)

Published by Alicia Stella on Mar-24-2019

All Copyable Tip Jars were recently updated to version 7.0. This version contains VERY important security fixes. To prevent abuse of your tip jars when using the server you should replace your existing Tip Jars with the updated version 7.0 versions immediately, if you have not done so already.

To receive the new version, touch your tip jars and select UPDATES button and the new version will be sent to you.

To update, replace your old ones with the new versions. (You can instead replace just the scripts inside your objects, if you wish to keep the same objects, but reset them once replaced.) Note: Configuration note cards have not changed.
